

TH

Thomas Hammon

Professional Summary

Hello, I am a self taught web developer looking to get into the tech industry. I have been studying for the past two years and I am looking for an internship or similar entry level position. I'm excited to learn, and thrive on constructive criticism.

Work History

Personal Projects

Springfield, MO

09/2023 - Current

My most recent personal project is my personal website. I developed it from the ground up, using the React framework, and pursued it all the way to completion. I plan to continue to update it as the need arises, to keep a current and tangible display of my skills. Take a look: [Hammonthomas.com](https://hammonthomas.com)

Open SGF - Volunteer

Springfield, MO

10/2022 - Current

- Assisted in creating web based apps and websites for non-profit groups in our area.
- Worked in a team based environment using open source style Git protocols to contribute to project goals.
- Approached new and unknown technologies head on, embracing a learning mindset to continue my progress.

Neighbor's Mill Bakery & Cafe - Line Cook/Prep Cook

10/2021 - Current

- I work in a team oriented environment, making hot and cold sandwiches primarily
- I perform to the versatile needs of the job, covering positions that need filled and learning as I go
- Trained in numerous positions around the restaurant.

Colton's Steak House & Grill - Server/Bartender

10/2019 - 07/2021

- As a server, I was the core of our guest's experience
- Greeted guest in a timely manner
- Balanced order input to make sure food was ready on time and in order for customer satisfaction
- Communicated effectively with other members of the crew and management to work around shortcomings of circumstance to ensure customer satisfaction
- Provided service of several steps to multiple tables simultaneously on a nightly basis, keeping track of which step of service each table was on independently and prioritizing the most important to provide seamless and quality service.

Levi Zitting

Engineering Manager at Midwestern Interactive

Organizer at Open SGF
me@levizitting.com

"For the past year or so Thomas has been attending Open SGF, a weekly volunteer software dev group. He's become a steady member of our group, regularly attending meetings, working with others on projects, and asking questions to make sure he understands the concepts we're working with. He's certainly got a lot to learn, but with the right opportunity that gives him the room to grow, I think he would crush it!"

Skills

- CSS
- JavaScript
- HTML5
- React

Education

05/2020

Missouri State University-Springfield
Springfield, MO
Bachelor's in Psychology
